

The Black Hole by L. Marie Wood

Book Info Sheet

Blurb:

A group of friends head out to enjoy a much-deserved night out and paintballing is on the menu. But the team they are playing against has something entirely different in mind.

The friends find themselves in a battle for their lives in unfamiliar terrain against well-equipped opponents whose motivations are both irrational and lethal. Considered, "... a true trip into the darkest depths of what mankind is capable of at its worst," by *Midwest Book Review*, this story is a classic tale of prey combined with slasher film "edge-of-your seat" vibes with a little modern-day relevance to keep you unsettled.

Told two ways in this ground-breaking screenplay/novella combo, *The Black Hole* will keep you guessing, engaged, and very, very scared.

Genre:

Horror
